

TRUSTSHIELD COMMERCIAL ROOF COATINGS

The Seamless, Permanent Solution
for Commercial Roof Protection

WHY REPLACE WHEN YOU CAN RESTORE?

Trust Shield Roof Coatings delivers a seamless, fabric-free roofing system designed to protect and preserve your roof for decades—without expensive tear-off, hot tar, or business disruption. Our monolithic membrane is fluid-applied, self-flashing, and backed by a written, transferable warranty

SMARTER, STRONGER, SEAMLESS

Our patented process combines a Poly/Acrylic Hybrid or Alkoxy Silicone coating with a fiber-infused base layer—eliminating all seams, fabric, and tape.

Key Performance Advantages:

- 500% elongation (vs. 250–350% in typical TPO)
- Class A fire rated and extreme hail rated
- Lightweight at just 0.23 lbs per square foot
- Seamless = fewer leak points
- Installs in 7 days or less, with 30-minute dry times

SAVES ENERGY. SAVES MONEY. SAVES THE ROOF.

With 90% solar reflectivity, our coatings reduce rooftop heat and cut cooling bills by up to 30%. It's a long-term, low-maintenance system designed to last—and recoat—for life.

Ongoing Cost Benefits:

- Recoating costs ~50% less than the initial install
- Recoat every 10–15 years with no added weight
- No structural strain — sustainable and repeatable
- Works on Metal, Mod-Bit, EPDM, Foam, TPO, PVC, Built-Up, and more

LOW DISRUPTION. HIGH IMPACT.

- No business shutdowns
- No tear-off
- No messy materials
- No seams = No surprises
- 3rd-party post-inspection with thickness verification
- Available colors: White, Gray, Blue, Beige
